Grace Discovers...

Known for her incredible knowledge, infectious energy, and passion for all things two wheels, Grace Webb will be heading up the brand-new Expert Lab.

Positioned at the heart of the show, the Expert Lab will host a jam-packed schedule of engaging, informative and entertaining sessions — with Grace getting to the bottom of all the latest technology and innovation, and asking the questions to ensure visitors walk away with new insights, a fresh perspective, or a newly sparked passion. Speaking with a line-up of expert guests, there's something for everyone — whether a seasoned rider or for those just beginning their journey on two wheels.

Sidecar Guys

We're very pleased to have the Sidecar Guys with us every day at 120pm, sit back, relax and listen in awe as they talk about their experiences traveling across 10 time zones, in blizzard-like conditions with temperatures as low as -45°C on a city commuter scooter and barn-built sidecar..!!!! So head to Hall 3, and hear all about their world first Guinness World record breaking adventure.

Machine Shor

0

It's not just live interviews either, there will be daily practical demonstrations from the incredible team from The Machine Shop, who will be showcasing their engineering prowess and enthusiasm through live demos, bringing the theory to life.

You can watch, ask questions and even take part in demonstrations, which will be including topics such as: Motorcycle Suspension Set Up - Motorcycle Tyre Changing - Motorcycle Servicing & Becoming a Home Mechanic!

But that's not all! You can be the first to witness the setting of a brand new (unofficial) WORLD RECORD for the fastest motorcycle assembly on stage! Every day the team will practice taking apart and putting back together a motorcycle, culminating in the final record setting on Sunday the 24th!
